

Parker Laboratories newest "must-have" helps reduce the risk of HAIs

Complete Each Ultrasound Procedure With **protex[®]pro** disinfectant

Protex[®] Pro meets the mandate for fast-acting, low-level, post-procedure disinfection. It's safe for use on ultrasound transducers, stations and probe holders, as well as other non-critical, non-porous and non-lumened medical devices and surfaces. Protex Pro may also be used as a pre-cleaner to remove gross debris before higher level disinfection procedures.

Available as pre-moistened wipes and ready-to-use spray. Only from Parker Laboratories, makers of Aquasonic[®] 100, STERILE Aquasonic[®] 100, Eclipse[®] Probe Cover and other ultrasound contact media you have come to know and trust.

For quick, consistent disinfection always begin and end each procedure with Protex Pro.
