

CP-D2E

Now: High quality photos from
Mitsubishi Electric also for home prints

With the CP-D2E Mitsubishi Electric has now developed a photo printer for home prints. The dye sublimation printer is addressed to digital photographer who want to print their photos fast and easy at home. Thanks to PictBridge - technology even printing from all compatible digital cameras without PC is possible.

The only 1.1 kg lightweight printer impresses not only with its appealing design but also with brilliant photos: the CP-D2E prints a 10x15-photo in only 88 seconds in a resolution of 306 dpi. Thanks to a special lamination you can enjoy your photos for a long time.

The software "Sublime HomePrintingServices 1.0", included in delivery, offers a wide range of image editing tools:

Rotate, cropping, colour and bright adjustment, focusing, red eyes correction, adding text, multi print. In addition it is possible to send photos via photo webalbum www.mitsubishialbum.com to a DPSKIOSK or DPSCLICK to print them there.

- Popular photo format: 10 x 15 cm
- Resolution: 306 dpi
- Printing time approx. 88 seconds
